Welcome to *Carniflora News*, a newsletter produced by the Australasian Carnivorous Plants Society Inc. (AUSCPS) that documents the meetings, news, and events of the Society.

The current committee of the AUSCPS comprises:

COMMITTEE

President - David Colbourn
davecolbourn@gmail.com

Vice President - Robert Little
robertjameslittle@yahoo.com.au

Treasurer - Wesley Fairhall
wesleyfairhall7@gmail.com

Secretary - Paul Fisher

Membership Secretary - Kirk 'Füzzzy' Hirsch
mijmark@ihug.com.au

General Committee Member - Glenn Carson

DELEGATES

Journal Editor - Dr. Robert Gibson

Sydney Coordinator - Wesley Fairhall
wesleyfairhall7@gmail.com

Newsletter Editor – Glenn Carson
glenncarson@iinet.net.au

Sydney Coordinator -Kirk 'Füzzzy' Hirsch
mijmark@ihug.com.au

Public Officer - Kirk 'Füzzzy' Hirsch
mijmark@ihug.com.au
0421 271 888

Brisbane Coordinator - Liam Krieger
liamkrieger71@gmail.com

Website Manager - Marina Chong

Brisbane Coordinator - Brent Jones
brent.jones@outlook.com

Social Media Manager - Glen Moss

Canberra Coordinator - Cassie Rogers
bonnie.nepenthes@gmail.com

Merchandise Manager - David Colbourn
davecolbourn@gmail.com

Library Manager - Glenn Carson
glenncarson@iinet.net.au

Events Coordinator - Vacant

Seed Bank Manager - Marlon Maclean
marlonjamesmaclean@gmail.com

CALENDAR

FEBRUARY

- 2nd Feb 2024 AUSCPS meeting - Canberra featuring *Dionaea*
- 7th Feb 2024 AUSCPS meeting - Brisbane featuring *Dionaea* care, division and repotting.
- 9th Feb 2024 AUSCPS meeting - Sydney featuring summer growing *Drosera* and Annual *Byblis*

MARCH

- 1st Mar 2024 AUSCPS meeting - Canberra featuring Cobra plants & marsh pitcher plants
- 6th Mar 2024 AUSCPS meeting - Brisbane featuring nomenclature, genera, species of carnivorous plants; and *Nepenthes*
- 8th Mar 2024 AUSCPS meeting - Sydney featuring *Pinguicula*
- 22nd Mar 2024 **Sydney Royal Easter Show**

APRIL

- 5th Apr 2024 AUSCPS meeting - Canberra featuring *Sarracenia* summer care
- 3rd Apr 2024 AUSCPS meeting - Brisbane
- 12th Apr 2024 AUSCPS meeting - Sydney featuring *Sarracenia* and *Darlingtonia*
- 13-14th Apr 2024 **Clarendon Collectors' Plant Fair**

MAY

- 3rd May 2024 AUSCPS meeting - Canberra featuring tuberous sundews
- 1st May 2024 AUSCPS meeting - Brisbane
- 10th May 2024 AUSCPS meeting - Sydney featuring *Nepenthes*

JUNE

- 7th Jun 2024 AUSCPS meeting - Canberra featuring *Sarracenia* winter care
- 5th Jun 2024 AUSCPS meeting - Brisbane
- 14th Jun 2024 AUSCPS meeting - Sydney featuring *Cephalotus*, *Heliophora* and Carnivorous *Bromeliads*

JULY

- 5th Jul 2024 AUSCPS meeting - Canberra featuring open discussions
- 3rd Jul 2024 AUSCPS meeting - Brisbane
- 12th Jul 2024 AUSCPS meeting - Sydney featuring winter growing *Drosera* and *Utricularia* and Winter Show
- 12th Jul 2024 **AUSCPS Annual General Meeting - Sydney**

AUGUST

- 2nd Aug 2024 AUSCPS meeting - Canberra featuring butterworts and bladderworts
- 7th Aug 2024 AUSCPS meeting - Brisbane
- 9th Aug 2024 AUSCPS meeting - Sydney featuring *Drosophyllum*, *Roridula* and perennial *Byblis*

SEPTEMBER

- 6th Sep 2024 AUSCPS meeting - Canberra featuring non-tuberous sundews
- 13th Sep 2024 AUSCPS meeting - Sydney featuring Australian native carnivorous plants
- Sep 2024 **Kariong Plant Lovers Fair TBA**
- 4th Sep 2024 AUSCPS meeting - Brisbane

OCTOBER

- 4th Oct 2024 AUSCPS meeting - Canberra featuring tropical pitcher plants
- 11th Oct 2024 AUSCPS meeting - Sydney featuring *Utricularia* and *Genlisea*
- 2nd Oct 2024 AUSCPS meeting - Brisbane

NOVEMBER

- 1st Nov 2024 AUSCPS meeting - Canberra
- 8th Nov 2024 AUSCPS meeting - Sydney featuring *Sarracenia*
- 6th Nov 2024 AUSCPS meeting - Brisbane

DECEMBER

- 6th Dec 2024 AUSCPS meeting - Canberra Christmas party and sale
- 4th Dec 2024 AUSCPS meeting - Brisbane
- 14th Dec 2024 **AUSCPS Sydney Annual Show (Saturday)**

JANUARY

- 5th Jan 2025 AUSCPS meeting - Canberra will not have meeting
- 3rd Jan 2025 AUSCPS meeting - Brisbane
- 12th Jan 2025 AUSCPS meeting - Sydney featuring *Dionaea* & *Aldrovanda*

NEWS

MEMBERSHIP RENEWAL

Membership of the Australasian Carnivorous Plant Society Inc. (AUSCPS) is \$20 per calendar year, or \$35 if you require printed journals with your membership. The AUSCPS is a not for profit organisation that promotes the conservation and cultivation of carnivorous plants in Australia and abroad.

JOIN NOW!

Membership entitles you to two editions of our journal, *Carniflora Australis*, 12 editions of our monthly newsletter, *Carniflora News*, subsidised seed from our seed bank, discounts on books and other merchandise, access to our free library and to sell plants at fairs and events attended by the Society. A membership form is included in this newsletter with instructions on how to make payment.

INSTAGRAM PHOTOS

We are looking to expand our file of quality photographs used in the newsletter and on our Social Media platforms. If you have any photos that you think may be suitable for publication, please forward them to glenncarson@iinet.net.au

[#australasiancarnivorousplantsociety](https://www.instagram.com/australasiancarnivorousplantsociety)

ARTICLES FOR CARNIFLORA AUSTRALIS

We are getting a little light for articles in forthcoming editions of *Carniflora Australis*. If you have an idea for an article, put pen to paper and send us your contribution. We can help fine tune any submission.

You may like to write about the following:

- * particular cultivation techniques,
- * field trips to see carnivorous plants,
- * propagation techniques,
- * your favourite plant and why,
- * how your collection started, and
- * feeding and conditions.

SEEDBANK

The current list of seeds in the Seedbank is very large. Rather than bring it to every meeting, which can be difficult, it is recommended that seeds are ordered via email. After payment has been received the specific order can be brought along to the meetings or posted in the normal way.

MERCHANDISE

T-SHIRTS

T-shirts printed with our logo on the front are available for \$40 each. These T-Shirts are a great way to promote and support the Society at functions and shows. Please contact Glenn at glenncarson@iinet.net.au or simply reach out to me at meetings in Sydney.

Other merchandise, including smoke discs, field guides, potting mixes, seedbank and books are found towards the end of this newsletter.

AUSCPS ANNUAL WINTER SHOW

THE ROYAL EASTER SHOW

The Royal Easter Show will be on from the 22nd March - 2nd April, 2024 at Homebush, NSW. This is a great opportunity to enter the Carnivorous Plant Competition to show off your wonderful plants and to win some prize money.

Again we will need some volunteers to be on hand for logistics and to help provide information to the public about carnivorous plants.

Carnivorous plants will be on display Friday, 22nd March through to Saturday, 23rd March.

More information can be found at <https://www.rasnw.com.au/globalassets/document-library/rasnw/competitions/flower--garden/2024/2024flowergardenshowscheduleweb.pdf>

THE VENUS FLYTRAP AND THE GOLF COURSE

The Endangered Species Act is thought of as wildlife’s “emergency room.” Are we doing enough to prevent species from landing there?

Venus flytraps grow naturally in only one place: a small region of North and South Carolina. Now, thanks to land development, fire suppression, climate change, and poaching, the plants are disappearing. One biologist is on a mission to save them.

Meet 76-year-old Julie Moore, a retired Fish and Wildlife Service biologist and flytrap maven, who's made it her quest to rescue these iconic plants.

“There’s nothing else in the world like it,” Moore said. “Noth-ing.” To her, the plant’s quirky modifications—its diet, jawlike leaves, and speed—aren’t scary; they’re evidence of Mother Nature’s power to survive, and what put Moore on a path to protect it.

While you can buy the hairy carnivorous plant at garden centers, and even Walmart, Venus flytraps only grow in the wild in one place on Earth: the wet longleaf pine forests of the Carolinas, boggy areas where scientists estimate about 880,000 individual plants remain in just 74 colonies.

A few years ago, Moore, who now runs a flytrap conservation nonprofit, got her hands on a confidential report commissioned by her old agency revealing some of the plant’s last remaining wild clusters.

One of them was in St. James Plantation, a retirement community in Southport, North Carolina. Mother Jones's science reporter, Jackie Flynn Mogensen, joined Moore on her hunt for the remaining carnivorous plants.

Want to learn more about the plight of the flytrap? You can read Mogensen's full story at the link below. <https://bit.ly/3ts1Txb>

MEETINGS

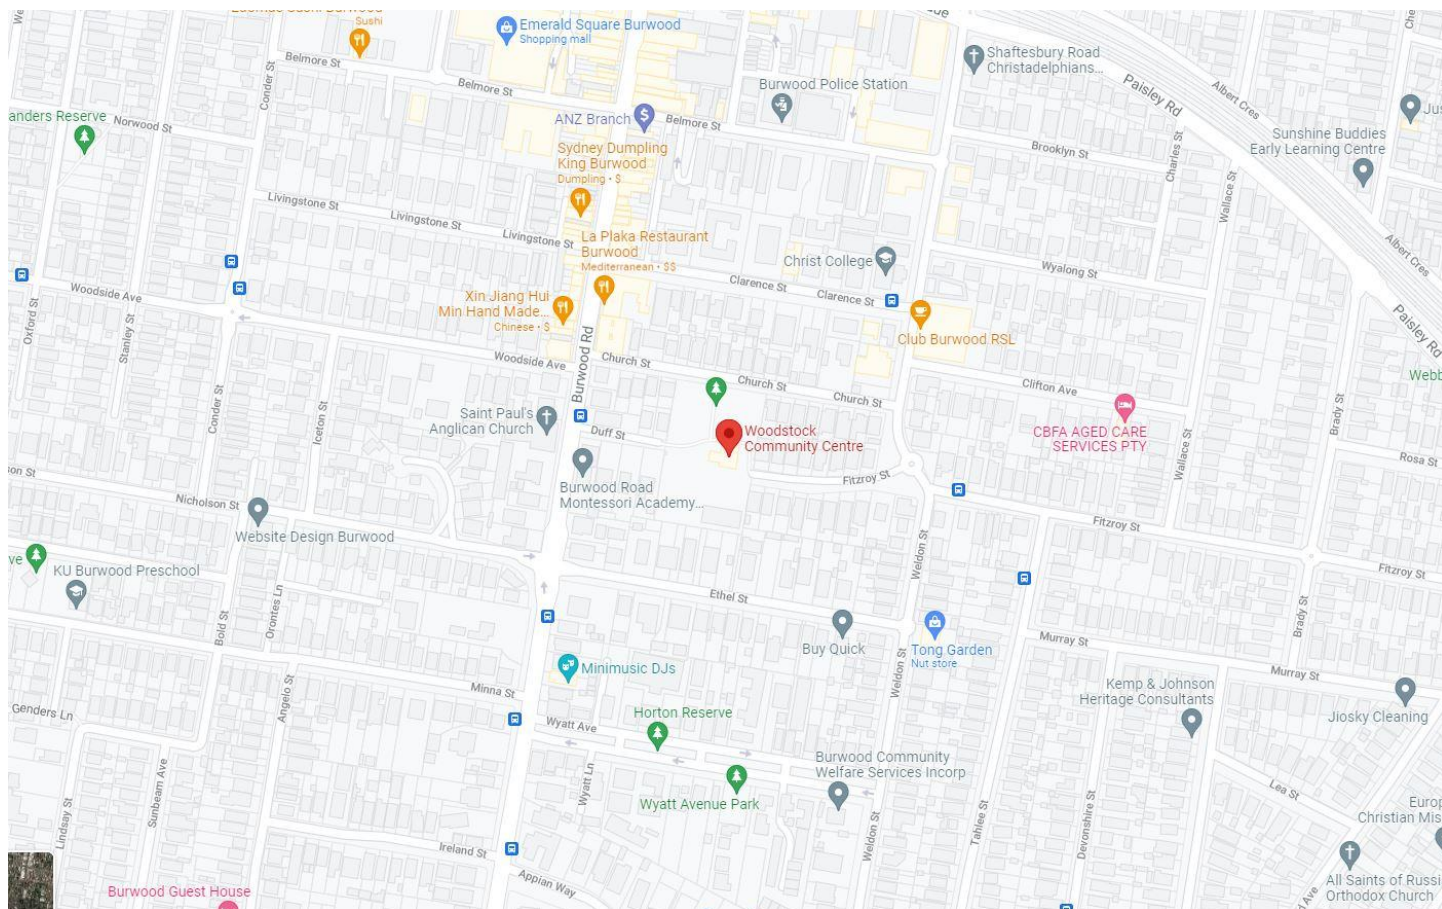

The Australasian Carnivorous Plant Society Inc. currently holds meetings in New South Wales, the Australian Capital Territory and Queensland. Meetings are a great place for members and friends to socialise, share experiences, buy, swap, and sell carnivorous plants.

Meetings are friendly and informative and cater for the experienced grower or new collector to the hobby. Occasionally, we have guest presenters who will give a talk on their adventures discovering carnivorous plants in the wild, or how best to cultivate them in your environment.

We hope you can attend one of our meetings and enjoy the fellowship of other enthusiasts for these wonderful plants.

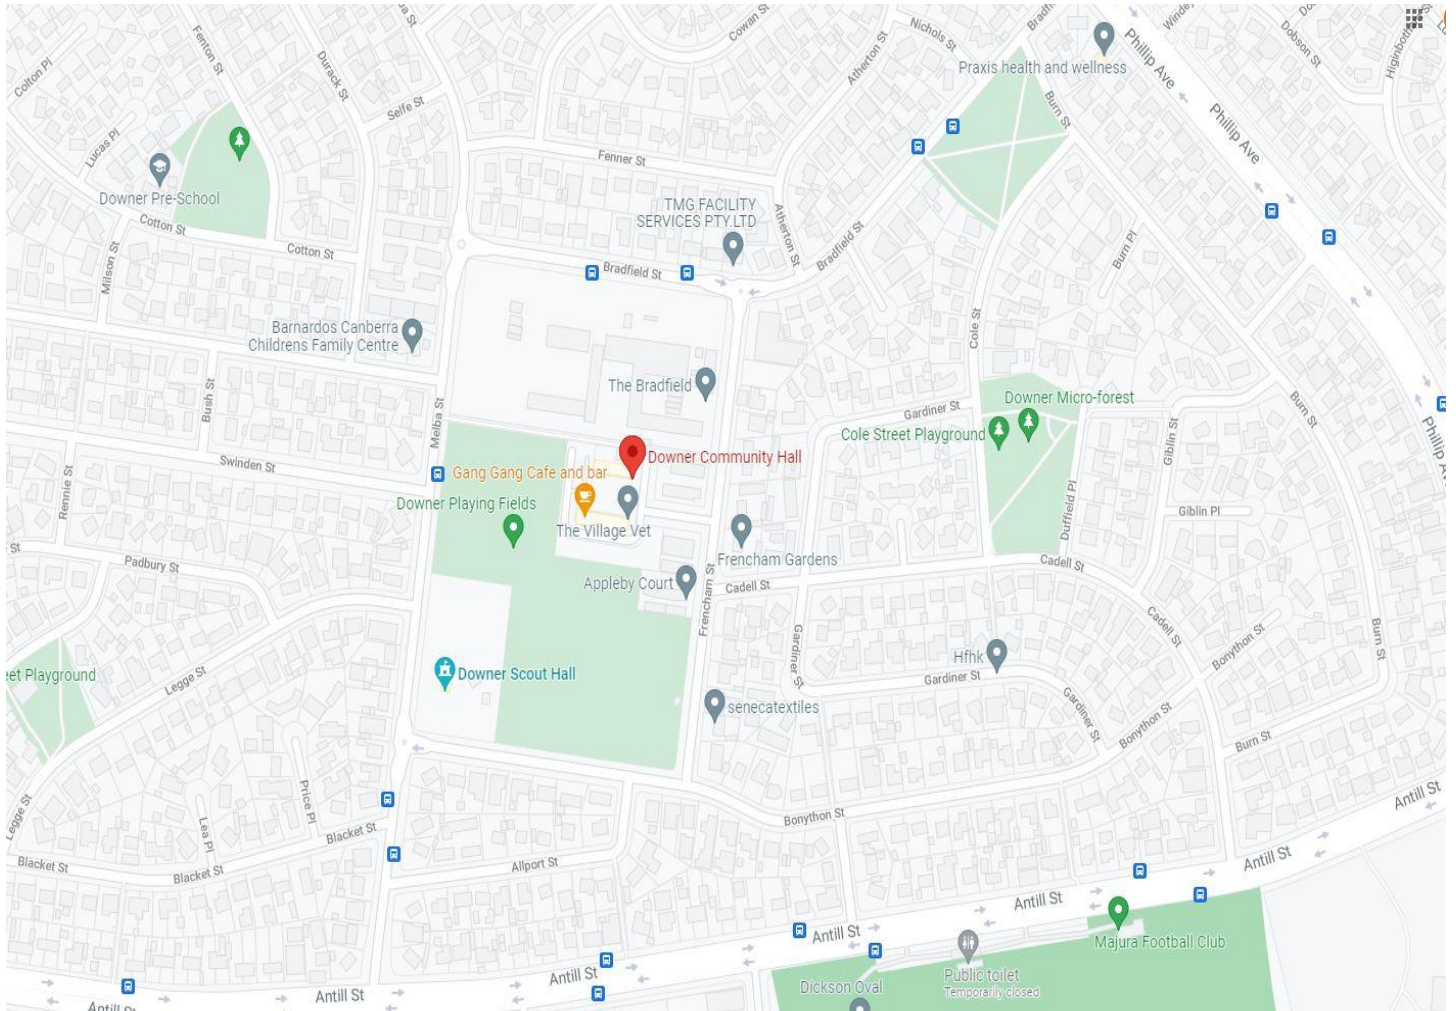

SYDNEY

The Sydney chapter of the AUSCPS meets at 7:30 PM on the second Friday of each month at the Woodstock Community Centre, Church Street, Burwood, NSW. Free parking is available off Fitzroy Street. Public transport is available with Burwood train station about 1 kilometre to the north. Call Kirk on 0421 271 888 or David on 0410 643 531 if you have any questions about attending meetings.

CANBERRA

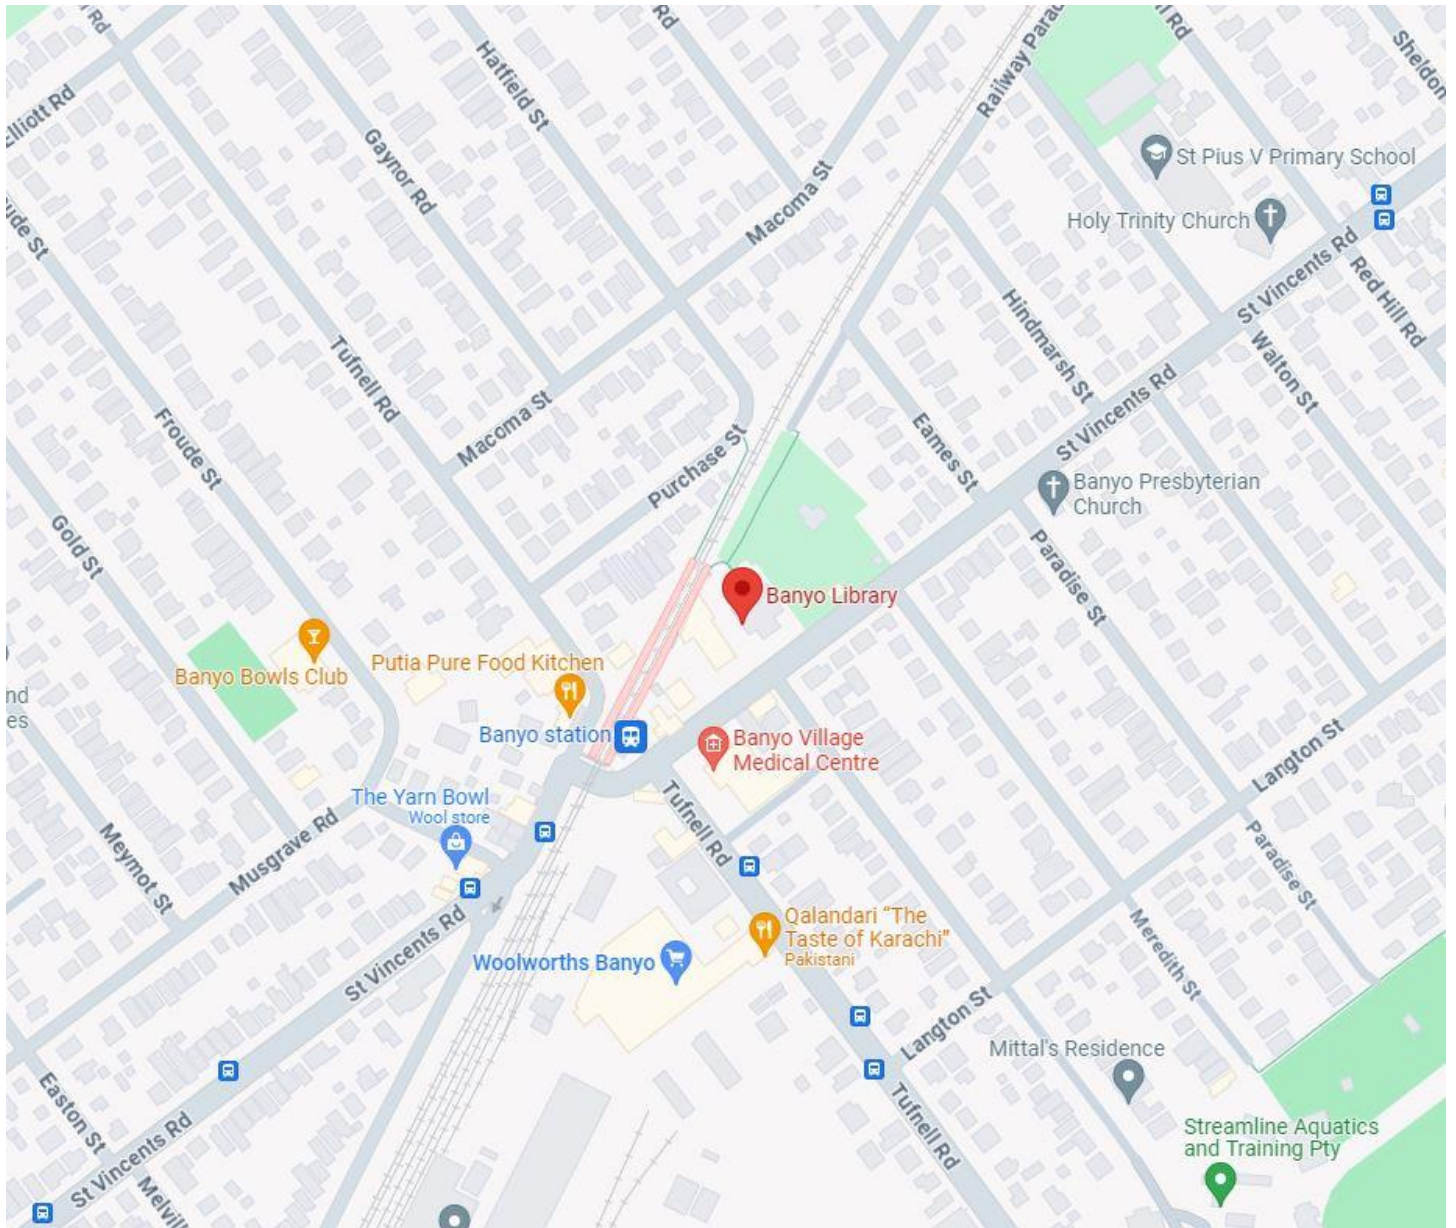

The Canberra chapter of the AUSCPS meets at 7:30 PM on the first Friday of each month at the Dickson Community Hall, Frencham Place, Downer, A.C.T. Contact Cassie Rogers bonnie.nepenthes@gmail.com if you have any questions about attending meetings. Canberra Convenor auscps-CBR@gmail.com

BRISBANE

The Brisbane chapter of the AUSCPS meets at 7:00 p.m. on a Wednesday once a month (please refer to the calendar for dates) at the Banyo Council Library, Meeting Room 2, 284 St Vincents Road, Banyo QLD, 4014.

Please contact Liam at liamkrieger71@gmail.com or on 0429850774 for further details.

MINUTES OF PREVIOUS MEETING

The minutes of the previous meeting of 10th November, 2023 were tabled at this meeting and accepted

B Jurd Accepted
G Carson Seconded the motion.

BUSINESS ARISING / GENERAL BUSINESS

1. The AUSCPS Annual Show Saturday 9th December, 2024

2. Meeting wrap up was emailed to members in December post show. Grand Champion ribbons have arrived and will be posted out, Gareth was the Grand Champion with his Darlingtonia. A good turnout was achieved despite the hot weather. Fitzroy Room has been booked again for this year.
3. Royal Easter Show 2024: 22nd March – 2nd April, 2024
The AUSCPS is sponsoring a carnivorous plant show over 2 days with prize money for 1st and 2nd winners in each category. Exhibition Entry is about \$37.50 with no limit to plants able to entered in any category. Includes entry at the show. Applications close Wednesday 14th February, 2024. Judging will be on Friday 22nd March with plant delivery allowed from 10:30 pm Thursday 21st March till 7:45 am Friday 22nd March, collection post display is from 10:30 pm till 8:00 am the following day.
4. Marlon and Fuzzy had been invited to give a talk at the show and Marlon has accepted, Fuzzy will look at updating the presentation.

CARNIVOROUS PLANTS PRIZE MONEY

1st \$40, 2nd \$20 each Class unless otherwise specified. Class prize money supported by Australasian Carnivorous Plant Society Inc.

CLASS 160 - *Dionaea* (Venus Fly Trap), single cultivar, in pot not exceeding 200mm.

CLASS 161 - *Drosera* (Sundew), single species, in pot not exceeding 200mm.

CLASS 162 - *Nepenthes* (Topical Pitcher Plant), single species or hybrid, minimum 3 pitchers, in pot not exceeding 350mm.

CLASS 163 - *Pinguicula* (Butterwort), single species, in pot not exceeding 200mm.

CLASS 164 - *Sarracenia*, single species or hybrid, minimum 3 pitchers, in pot not exceeding 200mm.

CLASS 165 - *Utricularia* and *Genlisea*, single species, in pot not exceeding 200mm.

CLASS 166 - Australian Native carnivorous plant, single cultivar, in pot not exceeding 200mm.

CLASS 167 - Carnivorous Plant, other, single species in pot not exceeding 200mm.

CHAMPION CARNIVOROUS PLANT All first prize winning Carnivorous Exhibits are eligible. Annual Trophy supported by Australasian Carnivorous Plant Society.

Judging Carnivorous Plants

CARNIVOROUS PLANTS ARE JUDGED BY THE FOLLOWING CRITERIA

Culture and Form	30
Condition	25
Traps & Pitchers	25
Colour	10
Size	5
Container	5
Total	100

5. Collectors' Plant Fair Clarendon. 13th & 14th April, 2024

AUSCPS will have a stall, due to small area purchased, 1 m² will initially be allocated for selling of plants to each grower, possibly with details to be determined later. The stall will be in the same area as last year, at the south side on the grassed area.

6. Invitation, from Friends of Royal (National Park) and Australian Plants Society for speakers at their meetings.
7. Information will be in the newsletter for those interested in giving a talk, which will possibly suit Marlon or Geoff. They are also advertising our field guides for sale on their website.
8. Winter show proposal for Sydney Chapter Winter Show– possibly June.
The focus will be to show winter flowering carnivorous plants with categories to be announced at a later date.
9. Membership renewals now due if not paid already.
Membership is per calendar year and Fuzzy has sent out reminder notices. Suggested offer of pay for 4 years – get one year free. Fuzzy will also contact past members to see if interested in rejoining

TREASURER'S REPORT

There's \$6873.70 in total.

Float has \$352.10

Paypal has \$143.45

W. Fairhall Moved

P. Fisher Seconded the motion.

MEMBERSHIP REPORT

There are 54 members currently for 2024, plus 4 additional members joined at tonight's meeting. Everyone has access to journals or has access to the .pdf, including other societies that share their journals with us.

PLANT OF THE MONTH

The theme for January's 'Plant of the Month' is *Dionaea* & *Aldrovanda*. Members entered the following plants:

1. *Dionaea Firetooth* (0)
2. *D. Firetooth* (1)
3. *D. Unlibella* (1)
4. *D. B52* (3)
5. *D. B52* (2)
6. *D. Cross-tooth* (2)
7. *D. Flat Red/Big Pink* (5)
8. *D. "Salad Bowl"* (17)
9. *D. Big Vigorous* (0)

The winner of '**Plant of the Month**' was: *Dionaea Muscipula* "Salad Bowl" grown by Glenn Carson.

The meeting closed at 8:45 pm.

A farewell and thank you was given to Glen Moss for his assistance with the society as he is moving to Queensland.

The next meeting will be on Friday, 9th February, 2024 and the next '**Plant of the Month**' will be summer growing *Drosera* and Annual *Byblis*.

Next meeting will be held in the Renwick Room in the Woodstock Community Centre.

Dionaea 'Salad Bowl' by Glenn Carson

Dionaea 'Fine Tooth'

Dionaea 'Big Pink'

Dionaea 'Cross Tooth'

AUSTRALASIAN CARNIVOROUS PLANT SOCIETY INC – BRISBANE CHAPTER

Letter from Liam Krieger, Brisbane Coordinator.

Greetings everyone! For those who are not aware, I have recently joined the team of coordinators for the Brisbane Chapter, and we have been working hard to plan for the future of the group and monthly meetings. I am happy to announce that our meetings will resume starting on Wednesday, February 7th from 7-9pm, but at a new location - the Banyo Council Library. This new location was chosen to not only accommodate our current needs but also to cater to future growth and offer a more central location for members.

We are thrilled to restart meetings and have some exciting plans in store such as information sessions from knowledgeable presenters, a focus plant of the month and a substantial members' sales table, among other things. We will share more information soon regarding our plans for the year and monthly meeting agendas. Please mark your calendars for the first Wednesday of each month: Feb 7th, Mar 6th, April 3rd, May 1st, June 5th, July 3rd, Aug 7th, Sept 4th, Oct 2nd, Nov 6th, and Dec 4th.

We welcome any queries or suggestions and encourage you to contact me or one of the other coordinators via email (liamkrieger71@gmail.com), Facebook (Liam Alexander Krieger) or phone (0429850774). Unfortunately, I may not be able to answer the phone at certain times while at work, but please leave a message or send a text, and I will respond as soon as possible. We are looking forward to seeing you at the first meeting, and we are confident that 2024 will be an excellent year for the Brisbane Chapter. More details will follow soon, so stay tuned!

Liam

IN THE GREENHOUSE

ALDROVANDA

Plants are in active growth. Consider adding fresh decomposing leaf litter to the water to add CO₂. Keep frogs and tadpoles out of the water, as they may eat the plants. Plants will divide rapidly. Plants may be grown in shade to reduce algae growth.

BROCCHINIA / CATOPSIS

Maintain high light levels and humidity. Water from above. Feed with 1/4 strength urea free liquid fertiliser every 4 weeks or so.

BYBLIS

Byblis gigantea and *lamellata* are naturally dormant over summer but may be kept in growth with constant soil moisture. Keep the soil moist to wet. Flowering continues. Harvest seed.

The northern annual species of *Byblis* will now be in active growth. Growth rates will be higher in hot and humid conditions. Cross pollinate the flowers to ensure seed set.

Growth rates for all species of *Byblis* may be accelerated with increased prey capture or fertilisation. Place some rotting fruit around the plants or sprinkle granulated fish food onto the leaves. Pollinate the flowers using the "buzz" technique.

CEPHALOTUS

Keep the soil moist but well drained. Avoid fungal problems by keeping good air movement around the plants.

DARLINGTONIA

Darlingtonia will be in active growth. Stolons will begin growing under the substrate. Watch out for hot days. Place your plants in more shade or consider bringing them indoors during hot weather. Night temperatures are high so it is imperative that the roots are kept cool.

DIONAEA

All VFTs should be in active growth. Many varieties will begin to produce upright petioles and traps, a strategy to compete with surrounding vegetation. Keep well watered.

DROSERA

Tuberous *Drosera* are dormant and will soon break dormancy. Ensure your repotting is done this month. Keep the pots barely moist.

Pygmy *Drosera* are dormant over summer and survive with the production of white stipule buds to reflect the sun and absorb the morning dew. Plants may be kept moister to keep in active growth.

Other Winter growing species such as *D. cistiflora* and *pauciflora* are still dormant. Reduce watering and keep the pots barely moist.

Tropical and subtropical species will be in full growth and flower. Keep the soil very moist. Collect seed and sow onto a peat based media.

Temperate *Drosera* such as *D. filiformis*, *intermedia* and *rotundifolia* will be in active growth and flower. Seed pods will be maturing, harvest seed.

DROSOPHYLLUM

Drosophyllum will be in active growth. Flowering commences in spring and continues into summer. Flowers are self fertile. Harvest seed. Avoid hot and humid conditions. Growth rates increase with increased prey capture.

GENLISEA

Genlisea should be in flower and active growth. Keep the water levels high with these species.

HELIAMPHORA

Keep plants in a bright and very humid location. Avoid temperatures over 30°C. Fertilise with a diluted foliar application of urea free fertiliser every 2-4 weeks.

NEPENTHES

Some *Nepenthes* struggle over the Australian summer. Aim to keep the lowland plants warm to hot and in high humidity. Highland species require cooler nights. Mist in the afternoon to reduce air temperatures and increase humidity.

PINGUICULA

Mexican species/hybrids are in active growth. Keep the soil moist and humidity high.

Warm temperate species such as *P. primuliflora* and *lusitanica* will continue growth. Keep the water up to *P. primuliflora* and take leaf cuttings.

RORIDULA

Roridula is in active growth. Flowering ends. Harvest any seed. Keep the soil moist and place in a very bright and airy situation with low humidity.

SARRACENIA

All *Sarracenia* species/hybrids are in active growth. Keep well watered and in full sun. *S. flava* and *oreophila* will produce non-carnivorous phyllodia. *S. leucophylla* and *rubra* will produce larger and more upright pitchers. They look their best in autumn.

UTRICULARIA

Most terrestrial *Utricularia* will be in active growth and flower. Keep moist to wet.

Aquatic *Utricularia* are in active growth. Keep algae under control.

Winter growing species, such as *U. multifida* and *menziesii* are still dormant. Keep the soil barely moist.

Tropical *Utricularia* - Maintain higher temperatures, humidity and air movement. Keep soils moist.

MERCHANDISE

CONTACT CARDS

The Society now produces a business sized card with all our contact details. The cards are free and available for collection from our meetings. Members and visitors are welcome to take a handful of cards to distribute to other Carnivorous Plant enthusiasts.

SMOKE DISCS

Smoke discs aid in the germination of difficult species of *Drosera*, *Byblis* etc., that often germinate after a bushfire. The discs are available for \$5.00 each at meetings or contact Marlon Maclean at marlonjamesmaclean@gmail.com

SEED BANK

Seed packets are \$1 each for members. Donations of seed are welcome. Please supply location data if available. Your Seed Bank Manager is Marlon Maclean at marlonjamesmaclean@gmail.com. The seed bank list is contained at the end of this newsletter.

POTTING MIXES

The Society is now selling assorted bags of Carnivorous Plant potting mix to members and friends. We have quality *Sphagnum* Peat Moss, Mexican *Pinguicula*, *Nepenthes* and *Sarracenia* mixes. Each bag is \$5 and may be purchased at meetings or events.

THE SAVAGE GARDEN

The Society is also selling copies of the second edition of "The Savage Garden" for members and friends to purchase. The Savage Garden, by Peter D'Amato, is one of the best books dedicated to the cultivation of Carnivorous Plants, covering more than 300 species, gloriously illustrated with more than 200 colour photographs over 374 pages.

We are offering this book to members for \$35 and to non-members for \$40. The books may be purchased from Society meetings and events, or via PayPal and posted to anywhere in Australia for \$12. Contact David at auscps@gmail.com to order.

FIELD GUIDE TO THE CARNIVOROUS PLANTS OF SYDNEY AND THE BLUE MOUNTAINS

Available now: email auscps@gmail.com

Members \$15

Non-Members \$20

FIELD GUIDE TO THE CARNIVOROUS PLANTS OF CANBERRA AND THE SNOWY MOUNTAINS

MEMBERSHIP FORM

The Australasian Carnivorous Plant Society Inc. is a not for profit organisation formed in December 2002 to promote the education, cultivation, and conservation of carnivorous plants. The Society formed from the New South Wales Carnivorous Plant Society Inc. which was established in 1986 and produced the journal *Flytrap News*.

Annual membership entitles you access to our subsidised seed bank, ability to sell plants at official stalls at which the society participates, monthly E-newsletters, and two editions of ***Carniflora Australis***, our high-quality biannual journal. Membership is \$35 per year, however if you wish to receive electronic versions of the journal, membership is only \$20 per year (valid email address is required). Payment options are detailed below:

CASH, MONEY ORDER OR CHEQUE

Please send your money order or cheque, made out to AUSTRALASIAN CARNIVOROUS PLANT SOCIETY INC., along with the completed form below to:

Membership Secretary
Australasian Carnivorous Plant Society Inc.
