NEWS

MEMBERSHIP RENEWAL

Membership of the Australasian Carnivorous Plant Society Inc. (AUSCPS) is \$20 per calendar year, or \$35 if you require printed journals with your membership. The AUSCPS is a not-for-profit organisation that promotes the conservation and cultivation of carnivorous plants in Australia and abroad.

JOIN NOW!

Membership entitles you to two editions of our journal, *Carniflora Australis*, 12 editions of our monthly newsletter, *Carniflora News*, subsidised seed from our seed bank, discounts on books and other merchandise, access to our free library and sell plants at fairs and events attended by the Society. A membership form is included in this newsletter with instructions on how to make payment.

INSTAGRAM PHOTOS

We are looking to expand our file of quality photographs used in the newsletter and on our Social Media platforms. If you have any photos that you think may be suitable for publication, please forward them to glenncarson@iinet.net.au

CALL FOR ARTICLES: CARNIFLORA AUSTRALIS

We are currently low on content for our upcoming editions of *Carniflora Australis*. Do you have an idea for an article? Write it down and send it our way! We are happy to assist with polishing your piece. Below are some suggestions for article topics:

- Specific cultivation techniques
- Carnivorous plant field trips
- Propagation techniques
- Your favorite plant and why
- How your collection began
- Feeding and care tips

Don't hesitate to contribute to our publication. We look forward to reading your submissions!

SEEDBANK

The current list of seeds in the Seedbank is exceptionally large. Rather than bring it to every meeting, which can be difficult, it is recommended that seeds are ordered via email. After payment has been received the specific order can be brought along to the meetings or posted in the normal way.

World Carnivorous Plant Day

World Carnivorous Plant Day 2025 was 7 May. In celebration of WCPD, there are now 24 new feature videos and 23 new shorts about CPs on the ICPS YouTube channel

<https://www.youtube.com/@CarnivorousplantsOrg1972/videos>

ICPS 2026 Conference

Werkgroep Carnivora will be hosting the International Carnivorous Plant Society 2026 Conference at the Hortus Botanicus in Leiden, the Netherlands, from August 21st to 23rd.

For three days, the spotlight will shine on plants that catch more than just the sun. We have an exciting program lined up, featuring fascinating lectures, a plant market, a conference dinner, and inspiring excursions. Of course, it's also a wonderful opportunity to connect with fellow enthusiasts of carnivorous plants. During ICPS2026, we will explore how carnivorous plants thrive in plant communities worldwide and how we, as a community, can have a positive or negative impact on their survival and the delicate ecosystems they depend on.

This e-mail was sent by the **International Carnivorous Plant Society** to keep our members up to date on our latest events and other happenings. You may also follow ICPS events on our [Facebook](#) page and our [YouTube](#) channel.

If you do not wish to receive these messages, you may change your notification preferences by logging into your membership account at <https://icps.clubexpress.com> and updating your preferences in Profile -- More Member Options: Privacy/Cancel/Remove.

The International Carnivorous Plant Society is an organization of gardeners, horticulturists, conservationists, scientists, and educators all interested in sharing knowledge and news of carnivorous plants. The Society is a registered US IRS 501(c)(3) nonprofit corporation and is the International Cultivar Registration Authority (ICRA) for cultivated carnivorous plant names.

ANNUAL GENERAL MEETING

NOMINATIONS FOR THE COMMITTEE

Our A.G.M. is planned for 11th July 2025 meeting in Sydney. One of the objectives at this meeting is to elect committee members. We are a national society, and as such, members from across Australia are eligible to be nominated for each position. A description of each elected position is contained below. **Included with this newsletter are instructions on how to nominate members for the listed positions and a nomination form.**

A list of nominations will then be published in June and voted on at the A.G.M. Interstate / international members will be able to make their vote via proxy. Please consider volunteering for the Society by standing for one of the roles.

The roles and their descriptions are:

President - The President oversees all the Society's activities and will chair General, Extraordinary, and Annual General meetings in accordance with proper business meeting etiquette. The President casts the 'Deciding Vote' in the event of a deadlock arising from a motion or other matters requiring a vote at Committee level. The President will need good communication, people management, motivational, organisational and delegation skills.

Vice President - The Vice President is responsible for the overall operation of the Society in the absence or otherwise incapacity of the President. The Vice President requires good communication, teamwork and organisational skills.

Treasurer - The Treasurer shall ensure that correct books and accounts are kept showing the financial affairs of the Society. These records shall be available for inspection by any member and

shall be held in the custody of the Treasurer. A financial report is to be presented at the A.G.M. The Treasurer will need good accounting and communication skills.

Secretary - The Secretary unless another person is so appointed by the Committee is responsible for the incoming and outgoing business correspondence for the Society. Including but not limited to reading emails and letters, and mail out of Journals. The Secretary shall ensure that records of the Constitution/Rules of the Society and minutes of all general and committee meetings are kept. These records shall be available for inspection by any member and shall be held in the custody of the Secretary.

Membership Secretary - The Membership Officer is automatically appointed as Public Officer unless another person is so appointed by the Committee and shall ensure that the register of members is kept up to date. Membership records shall be available for inspection by any member and shall be held in the custody of the Membership Secretary.

MEETINGS

The Australasian Carnivorous Plant Society Inc. currently holds meetings in New South Wales, the Australian Capital Territory and Queensland. Meetings are a great place for members and friends to socialise, share experiences, buy, swap, and sell carnivorous plants.

Meetings are friendly and informative and cater for the experienced grower or new collector to the hobby. Occasionally, we have guest presenters who will give a talk on their adventures discovering carnivorous plants in the wild, or how best to cultivate them in your environment.

We hope you can attend one of our meetings and enjoy the fellowship of other enthusiasts for these wonderful plants.

MINUTES OF THE AUSTRALASIAN CARNIVOROUS PLANT SOCIETY INC.

MINUTES FRIDAY, 7TH of MARCH 2025

AT

DOWNER COMMUNITY HALL, FRENCHAM PLACE, DICKSON

The Canberra meeting at the Downer Community Centre had a smaller turnout on Friday 2 May 2025, most likely due in part to the Saturday Federal Election with the group sharing the space with AEC Voting Booths.

This month's theme was Nepenthes. Six people were present with two bringing plants for show.

The night saw a general group discussion around plant treatments against various pests and fungus. Barry Bradshaw gave a brief overview of the Collectors Plant Fair in Sydney.

The group chat then moved onto VFT and tissue culture methods, with the night concluding with a vote on plant of the month. It was tie between Ross Hetherington's four plants - a Nepenthes gothica, Red Leopard, maxima X, and ventricosa, and Barry Bradshaw's Nepenthes.

MINUTES FRIDAY, 11TH of APRIL 2025

AT

WOODSTOCK COMMUNITY CENTRE, CHURCH STREET, BURWOOD

The meeting opened at 8.17 pm

PRESENT

There were 21 attendees present.

IN THE GREENHOUSE

ALDROVANDA

Plants will enter dormancy soon and survive winter as floating turion in cold climates.

BROCCHINIA / CATOPSIS

Maintain high light levels and humidity. Fertilise with a diluted foliar application of urea free fertiliser.

BYBLIS

Byblis gigantea and *lamellata* are now in active growth. Keep the soil moist to wet. Treat seed with Ga3 or smoke water and sow in early autumn.

The northern annual species of *Byblis* will soon finish their life cycle. Harvest seed.

Growth rates for all species of *Byblis* may be accelerated with increased prey capture or fertilisation. Place some rotting fruit around the plants or sprinkle granulated fish food onto the leaves. Pollinate the flowers using the “buzz” technique.

CEPHALOTUS

Keep the soil moist but well drained. Avoid fungal problems by keeping good air movement around the plants. Leaf production will soon replace trap production.

DARLINGTONIA

Darlingtonia will soon enter dormancy. Keep the plants cold to prolong the dormancy.

DIONAEA

All VFTs will soon enter dormancy. Dead traps can be removed to allow top soil to breathe. Reduce water but keep moist.

DROSERA

Tuberous *Drosera* begin to break dormancy. Increase watering and expose to bright or direct light. Treat seed with Ga3 or smoke water and sow in early autumn.

Pygmy *Drosera* begin to produce gemmae. Harvest and place the gemmae on a peat:sand mix (1:1). Mist spray until the tap root forms.

Other Winter growing species such as *D. cistiflora* and *pauciflora* commence growth. Treat seed with Ga3 or smoke water and sow in early autumn.

Tropical and sub-tropical species will be in full growth and flower. Keep the soil very moist and keep the plants warm. Collect seed and sow onto a peat-based media.

Temperate *Drosera* such as *D. filiformis*, *D. intermedia* and *D. rotundifolia* enter dormancy and form a winter hibernacula.

DROSOPHYLLUM

Drosophyllum will be in active growth. Growth rates increase with increased prey capture and the cooler weather. Seed may be sown now. Scarify the hard seed coat or pour boiling water over the seed for a few seconds and then soak in water for 24 hours before sowing.

GENLISEA

Genlisea should be in flower and active growth. Keep warm and the water levels high.

HELIAMPHORA

Keep plants in a bright and very humid location. Avoid temperatures over 30°C. Fertilise with a diluted foliar application of urea free fertiliser every 2-4 weeks.

NEPENTHES

Autumn is a good time for Nepenthes. Aim to keep the lowland plants warm to hot and in high humidity. Highland species will enjoy the cooler nights. Mist in the afternoon to reduce air temperatures and increase humidity.

PINGUICULA

Mexican species/hybrids begin to enter dormancy and produce small succulent rosettes. Reduce watering and humidity.

Warm-temperate species such as *P. primuliflora* and *lusitanica* will continue growth. Keep the water up to *P. primuliflora* and take leaf cuttings.

RORIDULA

Roridula is in active growth. Flowering ends. Harvest any seed and sow in autumn. Keep the soil moist and place in a very bright and airy situation with low humidity.

SARRACENIA

Sarracenia will soon enter dormancy. Leave the old trap on the plant. Keep moist.

UTRICULARIA

Most terrestrial Utricularia will be in active growth and flower. Keep moist to wet. Aquatic Utricularia are in active growth. Keep algae under control.

Winter growing species, such as *U. multifida* and *U. menziesii* resume growth. Keep moist to wet.

Tropical Utricularia - Maintain higher temperatures, humidity and air movement. Keep soils moist.

MERCHANDISE

CONTACT CARDS

The Society now produces a business sized card with all our contact details. The cards are free and available for collection from our meetings. Members and visitors are welcome to take a handful of cards to distribute to other Carnivorous Plant enthusiasts.

SMOKE DISCS

Smoke discs aid in the germination of difficult species of *Drosera*, *Byblis* etc., that often germinate after a bushfire. The discs are available for \$5.00 each at meetings or contact Marlon Maclean at marlonjamesmaclean@gmail.com

SEED BANK

Seed packets are \$1 each for members. Donations of seed are welcome. Please supply location data if available. Your Seed Bank Manager is Marlon Maclean at marlonjamesmaclean@gmail.com. The seed bank list is contained at the end of this newsletter.

POTTING MIXES

The Society is now selling assorted bags of Carnivorous Plant potting mix to members and friends. We have quality *Sphagnum* Peat Moss, Mexican *Pinguicula*, *Nepenthes* and *Sarracenia* mixes. Each bag is \$5 and may be purchased at meetings or events.

THE SAVAGE GARDEN

The Society is also selling copies of the second edition of "The Savage Garden" for members and friends to purchase. The Savage Garden, by Peter D'Amato, is one of the best books dedicated to the cultivation of Carnivorous Plants, covering more than 300 species, gloriously illustrated with more than 200 colour photographs over 374 pages.

We are offering this book to members for \$35 and to non-members for \$40. The books may be purchased from Society meetings and events, or via PayPal and posted to anywhere in Australia for \$12. Contact David at auscps@gmail.com to order.

MEMBERSHIP FORM

The Australasian Carnivorous Plant Society Inc. is a non-profit organisation formed in December 2002 to promote the education, cultivation and conservation of carnivorous plants. The Society formed from the New South Wales Carnivorous Plant Society Inc. which was established in 1986 and produced the journal *Flytrap News*.

Annual membership entitles you access to our subsidised seed bank and merchandise, ability to sell plants at official stalls at which the society participates, free entry to our Annual Show competition, monthly E-newsletters, and two editions of ***Carniflora Australis***, our high quality biannual journal. Membership is \$35 per year, however if you wish to receive electronic versions of the journal, membership is only \$25 per year (valid email address is required). Payment options are detailed below:
