NEWS

MEMBERSHIP RENEWAL

Membership of the Australasian Carnivorous Plant Society Inc. (AUSCPS) is \$20 per calendar year, or \$35 if you require printed journals with your membership. The AUSCPS is a not for profit organisation that promotes the conservation and cultivation of carnivorous plants in Australia and abroad.

JOIN NOW

Becoming a member of our society offers great benefits such as receiving two editions of our journal, *Carniflora Australis*, 12 monthly newsletters, *Carniflora News*, seed subsidies, discounts on merchandise, access to our free library, and the ability to sell plants at fairs and events attended by the Society. Simply fill out the membership form included in our newsletter and follow the payment instructions.

INSTAGRAM PHOTOS

We are looking to expand our file of quality photographs used in the newsletter and on our Social Media platforms. If you have any photos that you think may be suitable for publication, please forward them to glenncarson@iinet.net.au

CALL FOR ARTICLES: CARNIFLORA AUSTRALIS

We are currently low on content for our upcoming editions of *Carniflora Australis*. Do you have an idea for an article? Write it down and send it our way! We are happy to assist with polishing your piece. Below are some suggestions for article topics:

- Specific cultivation techniques
- Carnivorous plant field trips
- Propagation techniques
- Your favorite plant and why
- How your collection began
- Feeding and care tips

Don't hesitate to contribute to our publication. We look forward to reading your submissions!

SEEDBANK

The current list of seeds in the Seedbank is very large. Rather than bring it to every meeting, which can be difficult, it is recommended that seeds are ordered via email. After payment has been received the specific order can be brought along to the meetings or posted in the normal way.

MEETINGS

The Australasian Carnivorous Plant Society Inc. currently holds meetings in New South Wales, the Australian Capital Territory and Queensland. Meetings are a great place for members and friends to socialise, share experiences, buy, swap, and sell carnivorous plants.

Meetings are friendly and informative and cater for the experienced grower or new collector to the hobby. Occasionally, we have guest presenters who will give a talk on their adventures discovering carnivorous plants in the wild, or how best to cultivate them in your environment.

We hope you can attend one of our meetings and enjoy the fellowship of other enthusiasts for these wonderful plants.

SYDNEY

The Sydney chapter of the AUSCPS meets at 7:30 PM on the second Friday of each month at the Woodstock Community Centre, Church Street, Burwood, NSW. Free parking is available off Fitzroy Street. Public transport is available with Burwood train station about 1 kilometre to the north. Call Kirk on 0421 271 888 or David on 0410 643 531 if you have any questions about attending meetings.

CANBERRA

The Canberra chapter of the AUSCPS meets at 7:30 PM on the first Friday of each month at the Dickson Community Hall, Frencham Place, Downer, A.C.T. Contact Mathew Day if you have any questions about attending meetings. Canberra Convenor auscps-CBR@gmail.com

BRISBANE

The Brisbane chapter of the AUSCPS meets at 7:00 p.m. on a Wednesday once a month (please refer to the calendar for dates) at the Banyo Council Library, Meeting Room 2, 284 St Vincents Road, Banyo QLD, 4014.

Please contact Liam at liamkrieger71@gmail.com or on 0429850774 for further details.

AUSTRALASIAN CARNIVOROUS PLANT SOCIETY INC – SYDNEY CHAPTER

MINUTES OF THE AUSTRALASIAN CARNIVOROUS PLANT SOCIETY INC.

HELD ON FRIDAY, 12TH SEPTEMBER, 2025

WOODSTOCK COMMUNITY CENTRE, CHURCH STREET, BURWOOD, NSW.

The meeting opened at 7:41 pm.

PRESENT

There were 13 attendees present.

APOLOGIES

Glenn, Oliver

MINUTES OF PREVIOUS MEETING

The minutes of the previous meeting held on 8th August 2025 were tabled and accepted.

- **Kirk:** Accepted
- **Marlon:** Seconded the motion.

BUSINESS ARISING / GENERAL BUSINESS

1. **Kariong Plant Lovers Fair** – Saturday 6th September – Sunday 7th September 2025
 - Slow but steady traffic to the stall with half of the stock sold on Saturday. Attendance was lower than in previous years, but the event was still worthwhile for growers and sellers.
2. **Spring Cactus Show** – Saturday 11th October 2025, Hawkesbury Showground
 - The event will run from 9:00 am to 4:00 pm. Final details are to be confirmed closer to the date.
3. **Wollondilly Garden Expo & Plant Fair** – Sunday 9th November 2025, Picton Botanic Gardens, 8:00 am – 2:00 pm
 - The AUSCPS will attend. Volunteers are needed for the event, and a call for volunteers will be sent out closer to the date.
4. **New AUSCPS Logo**
 - As discussed at the AGM, the committee is working on updating the logo. Marlon has been commissioned to design a new logo, and the committee will narrow the designs down to three options. These will be presented to the membership for voting and approval.
5. **Field Guides**

- **Adelaide guide:** Expected to be ready by the next meeting. Dave will give a presentation on Adelaide region plants.
- **Brisbane guide:** Progressing well.
- **Hobart guide:** Also progressing.

6. Australian Carniflora Journal

- The current edition is in progress and being formatted. Dave will submit an article celebrating the society's 40th anniversary.

7. Summer Show – Saturday 13th December 2025, 9:00 am – 3:00 pm at Fitzroy Hall

- Set-up will begin at 7:30 am. Posters and newsletter notices will be produced. There will be no AUSCPS meeting on Friday, 12th December.

8. Webpage Update and Event Coordinator Position

- The committee is looking to update the society's website. An expression of interest (EOI) will be sent out to members, and there is also consideration of professional hosting. The position of Event Coordinator remains available.

9. Royal Easter Show 2026 – 2nd April to 13th April

- The attendance has been confirmed, with carnivorous plant display judging scheduled for Friday, 3rd April. The number of categories has been reduced from 8 to 7.

CORRESPONDENCE

INCOMING:

- **ICPS Journal Vol. 54 #3, September 2025.**
- Notice of closure of Burwood Post Office and mailboxes from 5th November 2025. The Secretary will look into relocating the mailbox to a nearby location.

OUTGOING:

- None.

TREASURER'S REPORT

- **Bank Balance:** \$10,935.72 as of the end of August.
- **Frog Fund:** Approximately \$15.00.

Income:

- Income from the Kariong Plant Show: \$476.50.

Expenditure:

- Bunnings gift cards (for the next 12 months): \$420.00.
- WA University Student prize (ongoing support): \$100.00 per year.
- Royal Easter Show attendance payment: \$520.00.
- Prizes and trophy costs: \$644.50.

Current Balance: Approximately \$10,257.00.

The committee will discuss the possibility of investing part of the funds in a term deposit.

Motion: For the Treasurer to investigate investing in a 2-year term deposit, with the amount to be decided at a later date.

MEMBERSHIP REPORT

- There are currently 84 members for 2025.
- All members have access to journals, either through hard copy or in PDF format. Other societies also share their journals with us.

PLANT OF THE MONTH: **Pinguicula** and **Utricularia**

Utricularia:

- *U. alpina* (1)
- *U. humboldtii* (5)(6)
- *U. livida* (1)

Pinguicula:

- *P. primuliflora* (5)(5)
- *P. moctezumae* (1)
- *P. Hawkesbury* (1)
- *P. down under* (1)
- *P. emarginata* x *Weser* (1)
- *P. Hawkesbury* (on a stump) (4)

Discussion:

Kirk provided insights into the distribution, characteristics, and care requirements for both **Utricularia** and **Pinguicula** species.

Plant of the Month:

Utricularia humboldtii, grown by Dave Colburn, was highlighted for its unique characteristics and care requirements.

NEXT MEETING

The next meeting will be held on **Friday, 10th October 2025**.

Plant of the Month: *Nepenthes*.

The meeting closed at **8:31 pm**.

IN THE GREENHOUSE

ALDROVANDA

Plants are in active growth. Consider adding fresh decomposing leaf litter to the water to add CO₂. Keep water free of frogs and tadpoles, as they may eat the plants. Plants may be grown in shade to reduce algae growth.

BROCCHINIA / CATOPSIS

Maintain high light levels and humidity. Protect from frost. Feed with 1/4 strength urea free liquid fertiliser every 4 weeks or so.

BYBLIS

Byblis gigantea and *lamellata* will be in full growth. Flowering begins. Cross-pollinate flowers using the "Buzz" technique. Keep the soil moist.

The northern annual species of *Byblis* may be sown now. Germination commences when temperatures regularly reach 30°C. Artificial heat and/or smoke/GA3 treatment will induce germination.

CEPHALOTUS

Keep the soil moist but well drained. Avoid fungal problems by keeping good air movement around the plants. Flowering occurs in mid to late Spring.

DARLINGTONIA

Darlingtonia are in growth and flower. Keep moist and expose to cold temperatures for as long as possible. Stratified seed will begin to germinate.

DIONAEA

All Venus Fly Traps are in active growth with fresh leaves and flowers. Consider removing the flower spike and use in vegetative propagation.

DROSERA

Tuberous *Drosera* begin their dormancy with most species becoming dormant with the warmer weather. Reduce watering.

Pygmy *Drosera* will begin to flower as temperatures increase. Keep plants moist to wet.

Other Winter growing species such as *D. ramentacea*, *cistiflora* and *pauciflora* will begin to enter dormancy. Reduce watering.

Tropical and sub-tropical species will be in growth. Keep protected from frost.

Temperate *Drosera* such as *D. filiformis*, *intermedia* and *rotundifolia* will end their dormancy and begin to grow and flower.

DROSOPHYLLUM

Drosophyllum will be in active growth and requires frequent feeding. In the absence of insect prey, a 1/4 strength urea free liquid fertiliser applied to the leaves is fine. *Drosophyllum* tolerates higher soil moisture levels during the cooler months and may be watered using the tray method. As temperatures increase, reduce watering and keep the soil just moist. Flowering commences in Spring. Flowers are self fertile.

GENLISEA

Genlisea should be in flower and active growth. Keep the water levels high. Keep warm and protect from frost.

HELIAMPHORA

Keep plants in a bright and humid location. Light levels may be increased with the cooler nights. Feed with 1/4 strength urea free liquid fertiliser.

NEPENTHES

Spring is a great time for Nepenthes. Aim to keep the lowland plants above 15°C. Spotting of the leaves is a sign of temperatures being too low. Highland species enjoy the cooler nights and will continue to grow. Keep plants above 5°C.

PINGUICULA

Most Mexican species/hybrids are dormant. Look out for the Summer carnivorous leaves in the coming months. Keep the soil drier until growth resumes. Some of the non-carnivorous leaves may be removed for leaf cuttings.

Warm-temperate species such as *P. primuliflora* and *P. lusitanica* will continue growth. Flowering occurs in the Spring. Keep the water up to *P. primuliflora* and take leaf cuttings.

RORIDULA

Roridula is in active growth. Flowering occurs in winter and spring. Sow seed now onto moist peat/sand. Germination may take 3-8 weeks. Keep the soil moist and place in very bright situations. Ensure good air circulation to avoid fungal attack of the seedlings.

SARRACENIA

All *Sarracenia* species/hybrids will resume growth with fresh leaf shoots and flowers. *Sarracenia flava* and *oreophila* species look their best in spring. Increase the water level / frequency and keep in full sun.

UTRICULARIA

Most terrestrial *Utricularia* will be in active growth and flower. Keep moist to wet.

Aquatic *Utricularia* will resume growth.

Winter growing species, such as *U. multifida* and *menziesii* will begin to end their growing cycle and go dormant as temperatures increase and soils dry out.

Tropical *Utricularia* - Maintain higher temperatures, humidity and air movement. Keep soil moist.

MERCHANDISE

CONTACT CARDS

The Society produces a business sized card with all our contact details. The cards are free and available for collection from our meetings. Members and visitors are welcome to take a handful of cards to distribute to other Carnivorous Plant enthusiasts.

SMOKE DISCS

Smoke discs aid in the germination of difficult species of *Drosera*, *Byblis* etc., that often germinate after a bushfire. The discs are available for \$5.00 each at meetings or contact Marlon Maclean at marlonjamesmaclean@gmail.com

POTTING MIXES

The Society is now selling assorted bags of Carnivorous Plant potting mix to members and friends. We have quality *Sphagnum* Peat Moss, Mexican *Pinguicula*, *Nepenthes* and *Sarracenia* mixes. Each bag is \$5 and may be purchased at meetings or events.

THE SAVAGE GARDEN

The Society is also selling copies of the second edition of "The Savage Garden" for members and friends to purchase. The Savage Garden, by Peter D'Amato, is one of the best books dedicated to the cultivation of Carnivorous Plants, covering more than 300 species, gloriously illustrated with more than 200 colour photographs over 374 pages.

We are offering this book to members for \$35 and to non-members for \$40. The books may be purchased from Society meetings and events, or via PayPal and posted to anywhere in Australia for \$12. Contact David at auscps@gmail.com to order.

MEMBERSHIP FORM

The Australasian Carnivorous Plant Society Inc. is a non-profit organisation formed in December 2002 to promote the education, cultivation and conservation of carnivorous plants. The Society formed from the New South Wales Carnivorous Plant Society Inc. which was established in 1986 and produced the journal *Flytrap News*.

Annual membership entitles you access to our subsidised seed bank and merchandise, ability to sell plants on official stalls at which the society participates, free entry to our Annual Show competition, monthly E-newsletters, and two editions of ***Carniflora Australis***, our high quality biannual journal. Membership is \$35 per year, however if you wish to receive electronic versions of the journal, membership is only \$25 per year (valid email address is required). Payment options are detailed below:
