## NEWS

### MEMBERSHIP RENEWAL

Membership of the Australasian Carnivorous Plant Society Inc. (AUSCPS) is \$20 per calendar year, or \$35 if you require printed journals with your membership. The AUSCPS is a not-for-profit organisation that promotes the conservation and cultivation of carnivorous plants in Australia and abroad.

**JOIN NOW**

Becoming a member of our society offers great benefits such as receiving two editions of our journal, *Carniflora Australis*, 12 monthly newsletters, *Carniflora News*, seed subsidies, discounts on merchandise, access to our free library, and the ability to sell plants at fairs and events attended by the Society. Simply fill out the membership form included in our newsletter and follow the payment instructions.

### CALL FOR ARTICLES: CARNIFLORA AUSTRALIS

We are currently low on content for our upcoming editions of *Carniflora Australis*. Do you have an idea for an article? Write it down and send it our way! We are happy to assist with polishing your piece. Below are some suggestions for article topics:

- Specific cultivation techniques
- Carnivorous plant field trips
- Propagation techniques
- Your favorite plant and why
- How your collection began
- Feeding and care tips

Don't hesitate to contribute to our publication. We look forward to reading your submissions!

### SEEDBANK

The current list of seeds in the Seedbank is exceptionally large. Rather than bring it to every meeting, which can be difficult, it is recommended that seeds are ordered via email. After payment has been received the specific order can be brought along to the meetings or posted in the normal way.

## MEETINGS

The Australasian Carnivorous Plant Society Inc. currently holds meetings in New South Wales, the Australian Capital Territory and Queensland. Meetings are a great place for members and friends to socialise, share experiences, buy, swap, and sell carnivorous plants.

Meetings are friendly and informative and cater for the experienced grower or new collector to the hobby. Occasionally, we have guest presenters who will give a talk on their adventures discovering carnivorous plants in the wild, or how best to cultivate them in your environment.

We hope you can attend one of our meetings and enjoy the fellowship of other enthusiasts for these wonderful plants.

## **SYDNEY**

The Sydney chapter of the AUSCPS meets at 7:30 PM on the second Friday of each month at the Woodstock Community Centre, Church Street, Burwood, NSW. Free parking is available off Fitzroy Street. Public transport is available with Burwood train station about 1 kilometre to the north. Call Kirk on 0421 271 888 or David on 0410 643 531 if you have any questions about attending meetings.

# CANBERRA

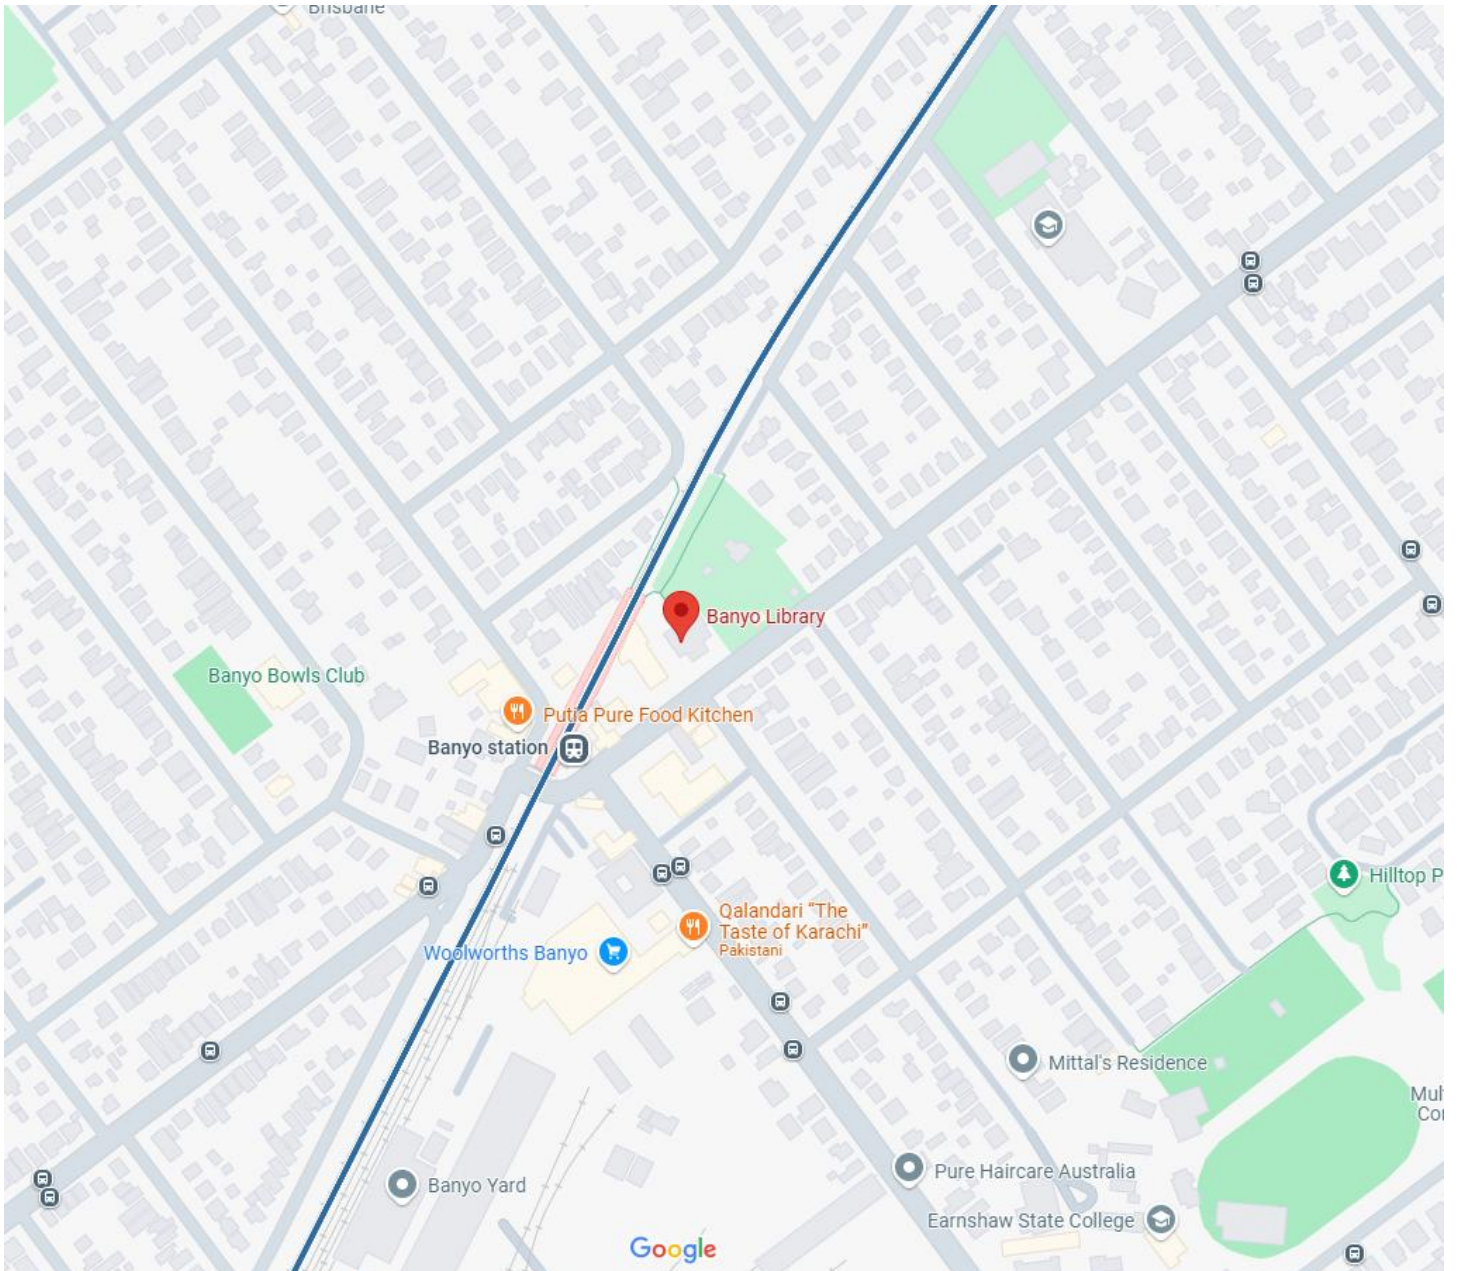

The Canberra chapter of the AUSCPS meets at 7:30 PM on the first Friday of each month at the Dickson Community Hall, Frencham Place, Downer, A.C.T. Contact Mathew Day if you have any questions about attending meetings. Canberra Convenor [auscps-CBR@gmail.com](mailto:auscps-CBR@gmail.com)

## BRISBANE

The Brisbane chapter of the AUSCPS meets at 7:00 p.m. on a Wednesday once a month (please refer to the calendar for dates) at the Banyo Council Library, Meeting Room 2, 284 St Vincents Road, Banyo QLD, 4014.

Please contact Liam at [liamkrieger71@gmail.com](mailto:liamkrieger71@gmail.com) or on 0429850774 for further details.

**MINUTES FRIDAY, 13<sup>TH</sup> of MARCH, 2026**

**AT**

**WOODSTOCK COMMUNITY CENTRE, CHURCH STREET, BURWOOD**

The meeting commenced at 7:45 pm with 14 members in attendance.

**Apologies** were received from Glenn C and Marlon M.

The minutes from the previous meeting (13th February 2026) were presented and accepted, with Kirk moving the motion and Paul seconding.

### **BUSINESS ARISING / GENERAL BUSINESS**

1. Members observed a minute of silence in honour of the late Hasan Fahridin.
2. Preparations were discussed for the Royal Easter Show (2–13 April), with the Society participating on Thursday 2nd and Friday 3rd April. Kirk will present two talks on the Friday.
3. Planning is well underway for the AUSCPS Plant Fair on Sunday, 19 April (9:00 am – 4:00 pm) at Fitzroy Hall. Due to strong interest, the outdoor paved area has also been secured. Social media promotion has been approved. A variety of member and guest sellers are confirmed, and hall access for setup will begin at 6:30 am.
4. The AUSCPS Winter Show is scheduled for Friday, 12 June 2026. No formal meeting will be held that evening, with setup likely from 6:30 pm.
5. The Society has agreed to proceed with a proposal to host the 2028 ICPS Conference. A working subcommittee is being formed, with a call for volunteers sent to members. The proposed dates are 3–5 May 2028 at the Darwin Botanic Gardens, including lectures and field trips. Five speakers have already expressed interest.
6. The Brisbane & Sunshine Coast Field Guide has been printed, along with 40 copies of the Sydney Field Guide.

### **CORRESPONDENCE**

#### **INCOMING:**

- Australia Post – PO Box renewal notice
- St George Bank – account compliance notice
- ICPS – e-journal

## **OUTGOING:**

Nil.

## **TREASURER'S REPORT**

- Bank balance: \$12,533
- PayPal balance: \$633

The report was accepted, moved by Wes and seconded by Robert G.

## **MEMBERSHIP REPORT**

There are 65 members currently for 2026.

Everyone has access to journals or has access to the .pdf, including other societies that share their journals with us.

## **PRESENTATION**

Dave delivered an engaging slideshow and talk on carnivorous plants of the Brisbane and Sunshine Coast regions.

## **PLANT OF THE MONTH**

Featured genera: *Drosophyllum*, *Roridula*, and *Byblis*

A range of plants were displayed, with *Roridula dentata* (pale brown pot), grown by Brett Daly, awarded Plant of the Month.

Brett shared details of his cultivation method: seeds sourced in 2024 germinated after 12 months, with only 2 successes from 60 seeds. Plants are grown in sunny, well-ventilated conditions, protected from rain. A free-draining mix is used, and plants are kept damp but not waterlogged. Fertiliser encourages branching, and large unglazed ceramic pots are preferred.

Additional plants on display included *Nepenthes truncata*, *Drosera fulva*, *D. darwinensis*, *D. broomensis*, *D. petiolaris*, *D. lanata*, and others.

The meeting concluded at 8:59 pm.

## **Next Meeting**

Friday, 10th April 2026

**Plant of the Month:** *Sarracenia*, *Darlingtonia*, and *Heliophora*

## IN THE GREENHOUSE

### **ALDROVANDA**

Plants are in active growth. Consider adding fresh decomposing leaf litter to the water to add CO<sub>2</sub>. Keep frogs and tadpoles out of the water, as they may eat the plants. Plants will divide rapidly. Plants may be grown in shade to reduce algae growth.

### **BROCCHINIA / CATOPSIS**

Maintain high light levels and humidity. Water from above. Feed with 1/4 strength urea free liquid fertiliser every 4 weeks or so.

### **BYBLIS**

*Byblis gigantea* and *lamellata* are naturally dormant over summer but may be kept in growth with constant soil moisture. Keep the soil moist to wet. Flowering continues. Harvest seed.

The northern annual species of *Byblis* will now be in active growth. Growth rates will be higher in hot and humid conditions. Cross pollinate the flowers to ensure seed set.

Growth rates for all species of *Byblis* may be accelerated with increased prey capture or fertilisation. Place some rotting fruit around the plants or sprinkle granulated fish food onto the leaves. Pollinate the flowers using the “buzz” technique.

### **CEPHALOTUS**

Keep the soil moist but well drained. Avoid fungal problems by keeping good air movement around the plants.

### **DARLINGTONIA**

*Darlingtonia* will be in active growth. Stolons will begin growing under the substrate. Watch out for hot days. Place your plants in more shade or consider bringing them indoors during hot weather. Night temperatures are high so it is imperative that the roots are kept cool.

### **DIONAEA**

All VFTs should be in active growth. Many varieties will begin to produce upright petioles and traps, a strategy to compete with surrounding vegetation. Keep well watered.

### **DROSERA**

Tuberous *Drosera* are dormant and will soon break dormancy. Ensure your repotting is done this month. Keep the pots barely moist.

Pygmy *Drosera* are dormant over summer and survive with the production of white stipule buds to reflect the sun and absorb the morning dew. Plants may be kept moister to keep in active growth.

Other Winter growing species such as *D. cistiflora* and *pauciflora* are still dormant. Reduce watering and keep the pots barely moist.

Tropical and subtropical species will be in full growth and flower. Keep the soil very moist. Collect seed and sow onto a peat based media.

Temperate *Drosera* such as *D. filiformis*, *intermedia* and *rotundifolia* will be in active growth and flower. Seed pods will be maturing, harvest seed.

## **DROSOPHYLLUM**

*Drosophyllum* will be in active growth. Flowering commences in spring and continues into summer. Flowers are self fertile. Harvest seed. Avoid hot and humid conditions. Growth rates increase with increased prey capture.

## **GENLISEA**

*Genlisea* should be in flower and active growth. Keep the water levels high with these species.

## **HELIAMPHORA**

Keep plants in a bright and very humid location. Avoid temperatures over 30°C. Fertilise with a diluted foliar application of urea free fertiliser every 2-4 weeks.

## **NEPENTHES**

Some *Nepenthes* struggle over the Australian summer. Aim to keep the lowland plants warm to hot and in high humidity. Highland species require cooler nights. Mist in the afternoon to reduce air temperatures and increase humidity.

## **PINGUICULA**

Mexican species/hybrids are in active growth. Keep the soil moist and humidity high.

Warm temperate species such as *P. primuliflora* and *lusitanica* will continue growth. Keep the water up to *P. primuliflora* and take leaf cuttings.

## **RORIDULA**

*Roridula* is in active growth. Flowering ends. Harvest any seed. Keep the soil moist and place in a very bright and airy situation with low humidity.

## **SARRACENIA**

All *Sarracenia* species/hybrids are in active growth. Keep well watered and in full sun. *S. flava* and *oreophila* will produce non-carnivorous phyllodia. *S. leucophylla* and *rubra* will produce larger and more upright pitchers. They look their best in autumn.

## **UTRICULARIA**

Most terrestrial *Utricularia* will be in active growth and flower. Keep moist to wet.

Aquatic *Utricularia* are in active growth. Keep algae under control.

Winter growing species, such as *U. multifida* and *menziesii* are still dormant. Keep the soil barely moist.

Tropical *Utricularia* - Maintain higher temperatures, humidity and air movement. Keep soils moist.

## MERCHANDISE

### **CONTACT CARDS**

The Society now produces a business sized card with all our contact details. The cards are free and available for collection from our meetings. Members and visitors are welcome to take a handful of cards to distribute to other Carnivorous Plant enthusiasts.

### **SMOKE DISCS**

Smoke discs aid in the germination of difficult species of *Drosera*, *Byblis* etc., that often germinate after a bushfire. The discs are available for \$5.00 each at meetings or contact Marlon Maclean at [marlonjamesmaclean@gmail.com](mailto:marlonjamesmaclean@gmail.com)

### SEED BANK

Seed packets are \$1 each for members. Donations of seed are welcome. Please supply location data if available. Your Seed Bank Manager is Marlon Maclean at [marlonjamesmaclean@gmail.com](mailto:marlonjamesmaclean@gmail.com). The seed bank list is contained at the end of this newsletter.

### POTTING MIXES

The Society is now selling assorted bags of Carnivorous Plant potting mix to members and friends. We have quality *Sphagnum* Peat Moss, Mexican *Pinguicula*, *Nepenthes* and *Sarracenia* mixes. Each bag is \$5 and may be purchased at meetings or events.

## THE SAVAGE GARDEN

The Society is also selling copies of the second edition of "The Savage Garden" for members and friends to purchase. The Savage Garden, by Peter D'Amato, is one of the best books dedicated to the cultivation of Carnivorous Plants, covering more than 300 species, gloriously illustrated with more than 200 colour photographs over 374 pages.

We are offering this book to members for \$35 and to non-members for \$40. The books may be purchased from Society meetings and events, or via PayPal and posted to anywhere in Australia for \$12. Contact David at [auscps@gmail.com](mailto:auscps@gmail.com) to order.
