

THE AUSTRALASIAN CARNIVOROUS PLANT SOCIETY INC.

CARNIFLORA NEWS

A.B.N. 65 467 893 226

October 2026

Welcome to *Carniflora News*, a newsletter produced by the Australasian Carnivorous Plant Society Inc. (AUSCPS) that documents the meetings, news, and events of the Society.

The current committee of the AUSCPS comprises:

COMMITTEE

President - David Colbourn
davecolbourn@gmail.com

Vice President – Liam Krieger
liamkrieger71@gmail.com

Treasurer - Wesley Fairhall
wesleyfairhall7@gmail.com

Secretary - Paul Fisher

Membership Secretary - Kirk 'Füzzzy' Hirsch
mijmark@ihug.com.au

General Committee Member - Glenn Carson

DELEGATES

Newsletter Editor – Glenn Carson
glenncarson@iinet.net.au

Public Officer - Kirk 'Füzzzy' Hirsch
mijmark@ihug.com.au
0421 271 888

Website Manager - Marina Chong

Social Media Manager - Vacant

Merchandise Manager - David Colbourn
davecolbourn@gmail.com

Events Coordinator - Vacant

Seed Bank Manager - Marlon Maclean
marlonjamesmaclean@gmail.com

Sydney Coordinator - Wesley Fairhall
wesleyfairhall7@gmail.com

Sydney Coordinator -Kirk 'Füzzzy' Hirsch
mijmark@ihug.com.au

Brisbane Coordinator - Liam Krieger
liamkrieger71@gmail.com

Brisbane Coordinator – Lucia Venturi
luciaventuri28@gmail.com

Canberra Coordinator - Mathew Day

Library Manager - Glenn Carson
glenncarson@iinet.net.au

CALENDAR

OCTOBER

2 nd Oct 2026	AUSCPS meeting - Canberra.
7 th Oct 2026	AUSCPS meeting - Brisbane.
9 th Oct 2026	AUSCPS meeting - Sydney featuring <i>Nepenthes</i>

NOVEMBER

4 th Nov 2026	AUSCPS meeting - Brisbane.
6 th Nov 2026	AUSCPS meeting - Canberra.
13 th Nov 2026	AUSCPS meeting - Sydney featuring <i>Sarracenia</i> , <i>Darlingtonia</i> and <i>Heliophora</i> .
21 st Nov 2026	AUSCPS Spring Fair – Burwood, Sydney

DECEMBER

3 rd Dec 2026	AUSCPS meeting - Brisbane.
5 th Dec 2026	AUSCPS meeting - Canberra.

JANUARY

1 st Jan 2027	AUSCPS meeting - Canberra.
6 th Jan 2027	AUSCPS meeting - Brisbane.
8 th Jan 2027	AUSCPS meeting - Sydney featuring <i>Dionaea</i> .

FEBRUARY

5 th Feb 2027	AUSCPS meeting - Canberra.
3 rd Feb 2027	AUSCPS meeting - Brisbane.
12 th Feb 2027	AUSCPS meeting - Sydney featuring <i>Utricularia</i> and <i>Genlisea</i> .

MARCH

7 th Mar 2027	AUSCPS meeting – Canberra.
2 nd Mar 2027	AUSCPS meeting – Brisbane.
9 th Mar 2027	AUSCPS meeting - Sydney featuring <i>Drosophyllum</i> , <i>Roridula</i> and <i>Byblis</i> .

APRIL

2 nd Apr 2027	AUSCPS meeting – Canberra.
7 th Apr 2027	AUSCPS meeting – Brisbane.
9 th Apr 2027	AUSCPS meeting - Sydney featuring <i>Sarracenia</i> , <i>Darlingtonia</i> and <i>Heliophora</i> .

MAY

5 th May 2027	AUSCPS meeting – Brisbane.
7 th May 2027	AUSCPS meeting – Canberra.
14 th May 2027	AUSCPS meeting - Sydney featuring <i>Nepenthes</i> .

JUNE

4 th Jun 2027	AUSCPS meeting - Brisbane.
5 th Jun 2027	AUSCPS meeting – Canberra.
11 th Jun 2027	AUSCPS Winter Fair – Burwood, Sydney.

JULY

2 nd Jul 2027	AUSCPS meeting - Canberra.
7 th Jul 2027	AUSCPS meeting – Brisbane.
9 th Jul 2027	AUSCPS meeting - Sydney featuring <i>Drosera</i> .
9 th Jul 2027	AUSCPS Annual General Meeting - Sydney.

AUGUST

4 th Aug 2027	AUSCPS meeting – Brisbane.
6 th Aug 2027	AUSCPS meeting – Canberra.
13 th Aug 2027	AUSCPS meeting - Sydney featuring Native carnivorous plants.

SEPTEMBER

1 st Sep 2027	AUSCPS meeting - Brisbane.
3 rd Sep 2027	AUSCPS meeting - Canberra.
10 th Sep 2027	AUSCPS meeting - Sydney featuring <i>Pinguicula</i> and <i>Utricularia</i> .

NEWS

MEMBERSHIP RENEWAL

Membership of the Australasian Carnivorous Plant Society Inc. (AUSCPS) is \$20 per calendar year, or \$35 if you require printed journals with your membership. The AUSCPS is a not for profit organisation that promotes the conservation and cultivation of carnivorous plants in Australia and abroad.

JOIN NOW

Becoming a member of our society offers great benefits such as receiving two editions of our journal, *Carniflora Australis*, 12 monthly newsletters, *Carniflora News*, seed subsidies, discounts on merchandise, access to our free library, and the ability to sell plants at fairs and events attended by the Society. Simply fill out the membership form included in our newsletter and follow the payment instructions.

INSTAGRAM PHOTOS

We are looking to expand our file of quality photographs used in the newsletter and on our Social Media platforms. If you have any photos that you think may be suitable for publication, please forward them to glenncarson@iinet.net.au

CALL FOR ARTICLES: CARNIFLORA AUSTRALIS

We are currently low on content for our upcoming editions of *Carniflora Australis*. Do you have an idea for an article? Write it down and send it our way! We are happy to assist with polishing your piece. Below are some suggestions for article topics:

- Specific cultivation techniques
- Carnivorous plant field trips
- Propagation techniques
- Your favorite plant and why
- How your collection began
- Feeding and care tips

Don't hesitate to contribute to our publication. We look forward to reading your submissions!

SEEDBANK

The current list of seeds in the Seedbank is very large. Rather than bring it to every meeting, which can be difficult, it is recommended that seeds are ordered via email. After payment has been received the specific order can be brought along to the meetings or posted in the normal way.

PLANT FAIR

FREE ENTRY

9am to 4pm, Saturday 21st November 2026
Woodstock Community Centre, Fitzroy Street, Burwood
Hosted by the Australasian Carnivorous Plant Society

A New Carnivore in the Mountains: *Saxifraga* Steps Into the Spotlight

For more than a century, *Saxifraga candelabrum* has lived quietly in alpine meadows — a modest plant with delicate leaves and tiny flowers. But in 2026, this unassuming species was thrust into the botanical spotlight when researchers confirmed what Charles Darwin suspected back in 1875: **Saxifraga is carnivorous**.

This discovery marks the first newly confirmed carnivorous plant lineage in years, and it's already reshaping how scientists think about plant evolution. Unlike the dramatic snap traps of Venus flytraps or the elegant pitchers of *Nepenthes*, *Saxifraga*'s strategy is subtle. Its leaves are covered in **sticky glandular hairs** that ensnare passing insects. Under fluorescence microscopy, these hairs glow with digestive enzyme activity — a telltale sign of true carnivory. When researchers fed the plants isotope-labelled fruit flies, they traced the nutrients directly into *Saxifraga*'s tissues, proving that the plant doesn't just trap insects — it eats them.

Genomic analysis added another twist. *Saxifraga* shares key carnivory-related genes with sundews and butterworts, despite belonging to a completely different plant family. This suggests that carnivory may have evolved **multiple times** across the plant kingdom, using similar genetic “toolkits” each time. In other words, carnivory isn't a rare evolutionary accident — it's a recurring solution to life in nutrient-poor environments.

For enthusiasts, this discovery is thrilling. It hints that **hidden carnivores** may be scattered throughout alpine and temperate ecosystems, quietly hunting without the dramatic traps we're used to. *Saxifraga*'s confirmation opens the door to more discoveries — and perhaps more surprises Darwin would have loved.

*A high-resolution botanical photograph of *Saxifraga candelabrum* growing in an alpine meadow, showing its rosette leaves and small flowers.*

Macro image of sticky glandular hairs on a Saxifraga leaf, with visible trapped insects.

MEETINGS

The Australasian Carnivorous Plant Society Inc. currently holds meetings in New South Wales, the Australian Capital Territory and Queensland. Meetings are a great place for members and friends to socialise, share experiences, buy, swap, and sell carnivorous plants.

Meetings are friendly and informative and cater for the experienced grower or new collector to the hobby. Occasionally, we have guest presenters who will give a talk on their adventures discovering carnivorous plants in the wild, or how best to cultivate them in your environment.

We hope you can attend one of our meetings and enjoy the fellowship of other enthusiasts for these wonderful plants.

SYDNEY

The Sydney chapter of the AUSCPS meets at 7:30 PM on the second Friday of each month at the Woodstock Community Centre, Church Street, Burwood, NSW. Free parking is available off Fitzroy Street. Public transport is available with Burwood train station about 1 kilometre to the north. Call Kirk on 0421 271 888 or David on 0410 643 531 if you have any questions about attending meetings.

CANBERRA

The Canberra chapter of the AUSCPS meets at 7:30 PM on the first Friday of each month at the Dickson Community Hall, Frencham Place, Downer, A.C.T. Contact Mathew Day if you have any questions about attending meetings. Canberra Convenor auscps-CBR@gmail.com

BRISBANE

The Brisbane chapter of the AUSCPS meets at 7:00 p.m. on a Wednesday once a month (please refer to the calendar for dates) at the Banyo Council Library, Meeting Room 2, 284 St Vincents Road, Banyo QLD, 4014.

Please contact Liam at liamkrieger71@gmail.com or on 0429850774 for further details.

MINUTES OF THE AUSTRALASIAN CARNIVOROUS PLANT SOCIETY INC.

HELD ON FRIDAY, 11TH SEPTEMBER 2026

WOODSTOCK COMMUNITY CENTRE, CHURCH STREET, BURWOOD, NSW.

The meeting opened at 8.00 pm

PRESENT

There were 19 attendees present.

APOLOGIES

Glenn C, Kirk H, Rob G, Brett D

MINUTES OF PREVIOUS MEETING

The minutes of the previous meeting of 14th August 2026 were tabled at this meeting.

Bob Accepted

Paul Seconded the motion.

BUSINESS ARISING / GENERAL BUSINESS

1. AUSCPS Spring Plant Fair Saturday 21 st November 2026
Fitzroy Hall, Woodstock Community Centre 9 am – 3 pm.
Setup will be from 6.30-7.00 am on the day.
Several growers have agreed to attend

Brompton Park Nursery
Strange World Carnivores
Juicy Plant Co
Susan's Succulents
Michelle's Aroids / Aroid Society
Nano Nursery
Desert Jungle Plant Co.

AUSCPS sellers will be in the Fitzroy Hall while other sellers will be in the outdoor area.
A coffee cart will also be organised.

2. AUSCPS will be hosting the International Carnivorous Plant Society Conference in May 2028
at the George Brown Botanical Gardens Darwin.
1st – 3rd – Conference, 4th-6th – Field trips.
Planning is in progress with costing/registration yet to be finalised. Possible conference dinner
cruise to be organised, with field trips to be organised following the conference. Plans are to go
live with registration in the new year.
3. Guest Presentation – Lorraine Emerson, President, Garden Clubs of Australia

Lorraine Emerson addressed the meeting, outlining the role of Garden Clubs of Australia, representing 800 clubs and 52,000 members nationwide. She also coordinates over 30 clubs and community gardens across the Inner West and Eastern Suburbs. She highlighted the organisation's comprehensive insurance coverage for members during club activities and travel. Lorraine also offered her assistance to the ICPS Conference committee if wanted.

4. Field Guides – revision work continues on the Sydney guide plus work continues on the Darwin guide with friends and members donating photographs.

CORRESPONDENCE

INCOMING:

ICPS Journal – Vol 55, No 3 Sept 2026 + electronic version

OUTGOING:

Royal Easter Show Carnivorous Plant Prize Sponsorship

Spring Fair dates have been forwarded to GCA for publishing in Dairy Dates and the next GCA magazine due out in October.

TREASURER'S REPORT -

Bank –	\$11,549.36
Float -	\$300.00
Paypal -	\$350.00

Wes	Moved for acceptance
Marion	Seconded

MEMBERSHIP REPORT

78 financial members

PLANT OF THE MONTH

Pinguicula and Utricularia

P. mazatecus	0
P. gigantea "Violet Flower"	0
P. laveana x (moctezumbe x emarginita)	10
P. aphrodite	0
P. emarginata hybrid on Rock	0
U. cornigera	12

Plant of the Month U. cornigera grown by Greg Bourke

Dave gave a talk on the care and cultivation of pinguicula and following voting, demonstrated the method for cross pollination of pinguicula.

The meeting closed at 9.07 p.m.

Next meeting will be on Friday, 9th October 2026

Plant of the Month – Nepenthes

Early Spring – In the Greenhouse

General Seasonal Notes

Dormancy ends for many species as temperatures rise. Turions begin to grow and appear at the water surface. Increased light and careful moisture management are essential during this transition period.

Brocchinia / Catopsis

- Maintain **high light levels** and **high humidity**.
- Protect plants from frost.
- Feed with **¼-strength urea-free liquid fertiliser**.

Byblis

- *Byblis gigantea* and *B. lamellata* will be in full growth and beginning to flower.
- Cross-pollinate using the **“buzz” technique**.
- Keep soil consistently moist.
- Northern annual species may be sown now. Germination begins once temperatures reach **30°C** regularly.
- Artificial heat and/or **smoke or GA₃ treatment** can assist germination.

Cephalotus

- Keep soil **moist but well-drained**.
- Ensure **good air movement** to prevent fungal issues.
- Flowering typically occurs **mid to late Spring**.

Darlingtonia

- Dormancy ends and new growth begins.
- Keep plants moist and expose them to **cold temperatures for as long as possible**.
- Stratified seed will begin to germinate.

Dionaea (Venus Flytraps)

- Plants will resume growth with fresh leaves and flowers.
- Consider removing the flower spike and using it for **vegetative propagation**.

Drosera

Tuberous Drosera

- Approaching the end of their growth cycle; tall species are flowering.
- Pollinate flowers and keep pots moist.

Pygmy Drosera

- Producing new leaves; some species flowering.
- Keep plants moist to wet.

Winter-growing species (*D. ramentacea*, *D. cistiflora*, *D. pauciflora*)

- Actively growing and flowering.
- Maintain moist soil.

Tropical & Subtropical *Drosera*

- Actively growing; protect from frost.

Temperate *Drosera* (*D. filiformis*, *D. intermedia*, *D. rotundifolia*)

- Emerging from dormancy.

Drosophyllum

- Actively growing.
- Tolerates higher soil moisture during cooler months; tray watering is acceptable.
- Flowering begins in Spring; flowers are **self-fertile**.

Genlisea

- In active growth and flowering.
- Maintain **high water levels**.
- Protect from frost.

Heliamphora

- Keep plants in **bright, humid** conditions.
- Light levels may be increased with cooler nights.
- Feed with **¼-strength urea-free liquid fertiliser**.

Nepenthes

- Spring is an excellent growth period.
- **Lowland species:** Keep above **15°C**; leaf spotting indicates temperatures are too low.
- **Highland species:** Enjoy cooler nights; keep above **5°C**.

Pinguicula

Mexican species & hybrids

- Dormant; carnivorous summer leaves will appear soon.
- Keep soil drier.
- Non-carnivorous leaves may be used for **leaf cuttings**.

Warm-temperate species (*P. primuliflora*, *P. lusitanica*)

- Actively growing; flowering in Spring.
- Keep *P. primuliflora* well-watered and take leaf cuttings.

Roridula

- Actively growing; flowering occurs in winter and spring.
- Sow seed now on moist peat/sand.
- Germination takes **3–8 weeks**.
- Keep soil moist and provide **very bright light**.
- Ensure **good air circulation** to prevent fungal issues in seedlings.

Sarracenia

- All species and hybrids resume growth with fresh shoots and flowers.
- *S. flava* and *S. oreophila* look their best in Spring.
- Increase watering frequency and keep plants in **full sun**.

Utricularia

- Most terrestrial species are actively growing and flowering; keep moist to wet.
- Aquatic species resume growth and flowering.
- Winter-growing species (*U. multifida*, *U. menziesii*) are in active growth and flowering.
- Tropical species require **higher temperatures, humidity, and air movement**; keep soils moist.

MERCHANDISE

CONTACT CARDS

The Society produces a business sized card with all our contact details. The cards are free and available for collection from our meetings. Members and visitors are welcome to take a handful of cards to distribute to other Carnivorous Plant enthusiasts.

SEED BANK

Seed packets are \$1 each for members. Donations of seed are welcome. Please supply location data if available. Your Seed Bank Manager is Marlon Maclean at marlonjamesmaclean@gmail.com. The seed bank list is contained at the end of this newsletter.

SMOKE DISCS

Smoke discs aid in the germination of difficult species of *Drosera*, *Byblis* etc., that often germinate after a bushfire. The discs are available for \$5.00 each at meetings or contact Marlon Maclean at marlonjamesmaclean@gmail.com

POTTING MIXES

The Society is now selling assorted bags of Carnivorous Plant potting mix to members and friends. We have quality *Sphagnum* Peat Moss, Mexican *Pinguicula*, *Nepenthes* and *Sarracenia* mixes. Each bag is \$5 and may be purchased at meetings or events.

THE SAVAGE GARDEN

The Society is also selling copies of the second edition of “The Savage Garden” for members and friends to purchase. The Savage Garden, by Peter D’Amato, is one of the best books dedicated to the cultivation of Carnivorous Plants, covering more than 300 species, gloriously illustrated with more than 200 colour photographs over 374 pages.

We are offering this book to members for \$35 and to non-members for \$40. The books may be purchased from Society meetings and events, or via PayPal and posted to anywhere in Australia for \$12. Contact David at auscps@gmail.com to order.

CLASSIFIEDS

diffusionscience.etsy.com by Ian Woolfe

Catch people's eyes like flies! I'm selling Venus flytrap designs printed on t-shirts, polo shirts, Hawaiian shirts, pullovers, hoodies, sneakers, slippers, ties, mugs, shorts, pyjamas and dresses. I can get the designs printed on almost anything. They are printed on demand, especially for each order. People can either order from the Etsy site, or contact me directly with their size, and choice of design, and I can get the item printed and shipped to them, or I can print a bunch and bring them to a meeting. I have six new designs to upload to the store over the next week or so. I will be expanding to designs of other carnivorous plant species.

Pots for Sale

Hi growers, I am selling all of my new black pots and labels.
I would like to know if you or any of you fellow members would be interested.
I list the items below, sold as a block and pick up only.

P100 SQ 252 off.
P125 SLKOO 111 off.
P140 cap base 382 off
LB 8504 85mm white labels 350 off.
LB 10004 100mm white labels 1000 off.
Price \$340 for the lot.
Please let me know if anyone is interested.

Cheers.
Ron Gauci.

MEMBERSHIP FORM

The Australasian Carnivorous Plant Society Inc. is a non-profit organisation formed in December 2002 to promote the education, cultivation and conservation of carnivorous plants. The Society formed from the New South Wales Carnivorous Plant Society Inc. which was established in 1986 and produced the journal *Flytrap News*.

Annual membership entitles you access to our subsidised seed bank and merchandise, ability to sell plants at official stalls at which the society participates, free entry to our Annual Show competition, monthly E-newsletters, and two editions of ***Carniflora Australis***, our high-quality biannual journal. Membership is \$35 per year, however if you wish to receive electronic versions of the journal, membership is only \$25 per year (valid email address is required). Payment options are detailed below:
